IT GRADUATE | SOFTWARE & WEB DEVELOPMENT

IT graduate with hands-on experience in web and mobile application development using Python, React, Django REST, and SQL. Skilled in frontend and backend development, database management, and delivering user-focused digital solutions through professional training and practical projects.

TECHNICAL & INTERPERSONAL SKILLS

Certifications: PCEP™ – Certified Entry-Level Python Programmer (PCEP-30-02), Python Institute.
Programming Languages: Python, JavaScript, SQL, Swift.
Web Technologies: HTML, CSS.
Frameworks: React, Django REST, SwiftUI.
Databases & Tools: Microsoft SQL Server, PostgreSQL, Firebase, GitHub, Power BI, RESTful APIs.
Interpersonal Skills: Problem-solving, leadership, organization, communication (Arabic & English).

TECHNICAL PROJECTS

Space App – Frontend / Backend GitHub | Platform – React, Django REST | HTML, CSS, JavaScript ***11/2025***

- Developed a React frontend integrated with Django REST APIs.
- Implemented an interactive focus timer and ambient sound features.
- Designed a responsive interface with dynamic space-themed visual elements.

ProMerge – Web Platform | Platform – JavaScript, HTML, CSS | OpenAI API, Firebase ***06/2024***

- Led a development team and supervised all project phases from planning to delivery.
- Integrated Firebase and AI-powered document template generation.
- Automated PDF creation and email delivery workflows.

Hawalik | iOS App - Swift | SwiftUI ***06/2023***

- Developed responsive SwiftUI interfaces for a peer-to-peer car rental platform.
- Integrated Firebase and MapKit for location-based features.

EXPERIENCE

Ministry of Communications and Information Technology (MCIT), Tamheer: ***05/2026 - 11/2026***

- Center of Digital Entrepreneurship (CODE), Entrepreneurship Enablement Department – Project Management Specialist.
- Coordinated with technology providers to negotiate digital solutions, services, and partnership benefits.
- Managed requests for digital services and benefits, connecting startups with relevant technology offerings.
- Coordinated startup participation in technology exhibitions and project showcases, and represented CODE at LEAP, promoting its digital initiatives and incubators.

King Fahad Medical City, Cooperative training: ***06/2024 - 08/2024***

- Administrative and Technical Training Department, Executive Management of Human Capital.
- Developed web and database applications using C#, Microsoft SQL Server, and HTML - enhancing internal workflows and data accessibility.
- Conducted business analysis and system design to support integration and mobile development initiatives—resulting in improved cross-platform functionality.

EDUCATION

Saudi Digital Academy | Software Development Bootcamp using Python. *480 hours* | ***11/2025***

Prince Musaid bin Abdulrahman University (formerly Saudi Electronic University): ***05/2025***

- Bachelor's degree in Information Technology (Cybersecurity Track).

Tuwaiq Academy | Smart Phone Application Development Camp using Swift Language. *200 hours* |***06/2023***
